EX-MUTANTS

Back in 1986, *Ex-Mutants* was the flagship title of the the company now known as Malibu Publishing; it was one of the first independent comics to post sales of over 100,000 copies an issue. Later this year, after a hiatus of almost half a decade, Malibu Comics will re-launch *The Ex-Mutants* as a major full-color title in the growing Malibu line—and in conjunction with the comic's release, a new *Ex-Mutants* Sega Genesis game is slated for fall release.

"This is not a miniseries, but a regular full-color monthly title," Malibu Editor-in-chief—and *Ex-Mutants* cowriter—Chris Ulm said. "We've got the support of Sega Genesis and a new creative team that includes artist Paul Pelletier and inker Ken Branch.... Paul is a talent to watch. His style is very reminiscent of Dale Keown or a young John Byrne. He's a rare find who brings a new dimension to the series. And he also draws great looking women!"

Ex-Mutants is set in a post-holocaust world in which most survivors have mu-

Ex Marks the Spot for Malibu

tated into a variety of monstrous forms; for some reason, though, the six members of the *Ex-Mutants* retain their human forms.

There's been a change in the *Ex-Mutants* since the team's original incarnation, though. Whereas the original team consisted of four women and one man, the new six-member *Ex-Mutants* team is evenly split with three men and three women. "This gives us more tension within the group and offers more story possibilities," Ulm said. The six *Ex-Mutants* are Shannon, Ackroyd, Bud, Tanya, Piper, and Dillon; they are led by Professor Kildare, a war cyborg who rejected his programming and is dedicated to improving human life in the post-holocaust world. He's a human professor who had his intelligence placed into a cybernetic suit,"

Ulm said. "He's the father figure. He actually transformed the *Ex-Mutants* from mutants to humans." While the six *Ex-Mutants* function as one fighting unit, there are also a variety of interpersonal relationships within the membership—some positive, and some not so positive.

The *Ex-Mutants* face several regular adversaries, including Sluggo (an evil green mutant) and Zygote, Sluggo's henchman. "He's a kind of technical vulture," Ulm said. "He's not a scientist in his own right, but he figures things out very well... he's able to cobble together bits and pieces of pre-war technology into nasty weapons."

Ex-Mutants is written by Tom Mason, Dave Olbrich, and Chris Ulm, all of whom have been with Malibu Publishing since *Ex-Mutants*' first successful run. While

the trio intends to keep the book on a fast-paced high-concept action course, Ulm adds that *The Ex-Mutants* has an underlying message as well. "The book has a pro-conservation message. It's about a world war—everything's been ravaged, but at the same time, there's still hope for a better future. The *Ex-Mutants* are part of that future, part of the rebuilding process. If there's a theme, it's that you should conserve what you have, that justice will prevail, and that humanity isn't skin deep. Even if you're some radioactive mutant, you still have some humanity. The villains are mutants, but the heroes are also mutants."

Ex-Mutants #1, a 32-page full-color comic priced at \$1.95, is scheduled for November release. The Sega Genesis video game, designed by Sage's Creation, is scheduled for release at the same time, and Sega Genesis will take will join Malibu in cross-promoting the comic and the videogame.

The Bats Fly This Fall

Earlier this fall, the *Batman* animated series became a smash hit on syndicated television. Later this fall, *Batman Returns* is slated to hit the video stores, where it is expected to be one of the biggest sellers of the holiday season. So is it any surprise that DC has a wide variety of *Batman*-related projects ready to hit the comic racks in the second-busiest comic season of the year?...

Batman: Birth of the Demon is sure to intrigue Bat-fans, since it is a companion volume to two previously-published *Batman* hardcover graphic novels starring Ra's al Ghul. **Birth of the Demon**, written by Denny O'Neil and illustrated by Norm Breyfogle, offers fans a look at the previously-unrevealed origin of *Batman*'s nemesis; the story takes readers back through the centuries to Ra's al Ghul's early days in the deserts of North Africa, revealing how he became such a force for evil. The graphic novel will be a real treat for Breyfogle fans, since it is Breyfogle's first fully-painted comics work.

Batman: Birth of the Demon, a 112-page hardcover priced at \$24.95, is scheduled for December 10th release. *Batman* fans get another peek into the past—albeit an alternative past—in *The Blue, The Grey, and the Bat*, a prestige-format one-shot in DC's Elseworlds series. This story depicts *Batman* in the American West, where he is carrying out a mission for President Lincoln—a mission that may help save the Union. Along the way, he meets Samuel Clemens, Wild Bill Hickock, and other famous American historical figures. *The Blue, the Grey, and the Bat* is written by Elliott S. Maggin and illustrated by Alan Weiss, with color by Lovern Kindzierski. To give the book an antique feel, DC is using an ivory matte textured cover stock that evokes the feeling of the Old West. The 64-page prestige-format one-shot, priced at \$5.95, is scheduled for November 19th release.

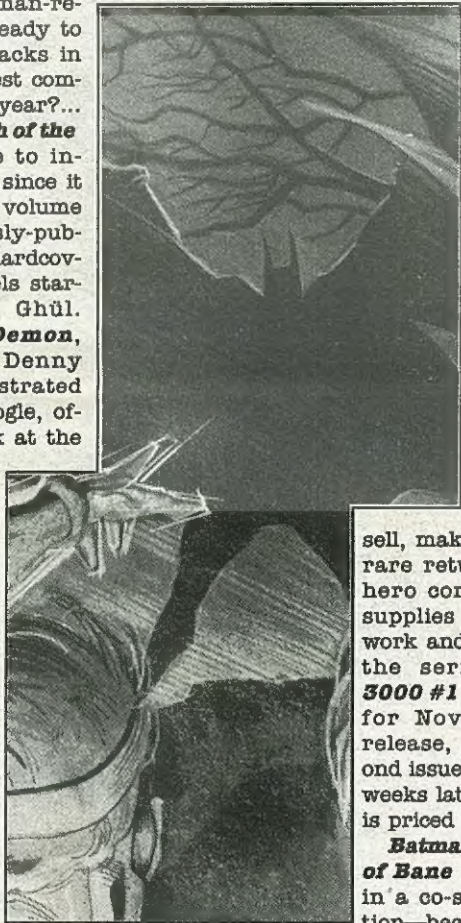

Another Elseworlds project scheduled for November release doesn't star *Batman* at all—in fact, *Batman* is dead in this storyline! **Robin 3000**, a two-issue prestige-format miniseries produced for DC by Byron Preiss Visual Productions, focuses on *Batman*'s sidekick who finds himself forced into solo action when his mentor is killed, leaving no one else to lead the battle against the Skulpt.

Robin 3000 is written by Byron Preiss and illustrated by acclaimed artist P. Craig Russell, making an all-too-rare return to superhero comics; Russell supplies both the artwork and the color for the series. **Robin 3000 #1** is scheduled for November 12th release, with the second issue following two weeks later; each issue is priced at \$4.95.

Batman: Vengeance of Bane puts *Batman* in a co-starring position—because the star of the book is a villain created by a process previously introduced in *Legends of the Dark Knight* #s 16-20. His name is Bane, and he's described by DC's Patricia Jerez as "the toughest inmate in the worst prison on the South American island of Santa Prisca, where he acquired his berserk strength, a savagery, calculating intellect, and an unparalleled megalomania..." Bane heads for Gotham City, where a conflict with the *Dark Knight* is inevitable. **Batman: Vengeance of Bane**, a \$2.50 64-page standard format oneshot written by Chuck Dixon and illustrated by Graham Nolan and Eduardo Barretto, is scheduled for December 10th release.

And if that isn't enough *Batman* for you, there's always the old standbys—*Batman, Detective, Shadow of the Bat*, and *Legends of the Dark Knight*. It's obvious that Batfans won't have to wait for the holidays to enjoy their bat-gifts!

by CLIFF BIGGERS

Marvel Ushers In the Iron Age

Iron Man #388 is a landmark issue for the Armored Avenger: it marks his 350th appearance in his own series (*Tales of Suspense* #39 introduced *Iron Man*; the series continued through *Tales of Suspense* #99, then jumped to *Iron Man & Sub-Mariner* #1—a one-shot—and from there came *Iron Man* #1). Of course, it's a difficult anniversary for Tony Stark to celebrate—after all, he is frozen solid right now...

Iron Man #388 brings back one of the most popular models of *Iron Man* armor ever designed, the black and white "War Machine" armor that far surpasses the capabilities of *Iron Man*'s standard armor. Of course, there's a new man in that armor—Rhodey, who continues to act as *Iron Man* while Tony Stark is cryogenically frozen awaiting medical treatment to restore him to normal. Why is Jim Rhodes pulling out the most powerful armor of all? Because it's the only hope he has of defeating Atom Smasher and Firepower, that's why. This special issue, written by Len Kaminski and illustrated by Kevin Hopgood, will also present new insights on Tony Stark's past, paving the way for the possible return of Stark in *Iron Man* #389.

Iron Man #388, a 48-page comic with a special commemorative foil embossed cover, is priced at \$2.50; look for it on November 26th.

Since *Iron Man*'s "War Machine" armor plays an integral role in this storyline, Marvel will reprint the origin of that armor—along with the introductory tales for a variety of other armor designs—in a trade paperback entitled *The Many Armors of Iron Man*. The Outer Space Armor, the Undersea Armor, the Red and White Armor, the Stealth Armor—they're all in here, along with *Iron Man*'s origin as presented by Barry Windsor-Smith. The book also features interviews with several creators responsible for *Iron Man*'s various armors, including Stan Lee and Don Heck (who presented *Iron Man*'s very first set or armor in *Tales of Suspense* #39, almost three decades ago). And for those of you who are too impatient to wait, *The Many Armors of Iron Man* will also offer a sneak peek of some of the new armor designs that will appear in the next year. *The Many Armors of Iron Man*, a 208-page \$15.95 trade paperback with a new Mark Chiarello cover, is scheduled for November 19th release.

Meanwhile, *Iron Man* will cause a serious shake-up in the ranks of the Avengers West Coast in the next few months. With Tony Stark gone, the Avengers West Coast are curious just who is in the *Iron Man* armor. They offer Jim Rhodes/*Iron Man* a position in the team—if he reveals his true identity to them. Rhodey declines, leaving the AWC with a severe power shortage—at a time when they can use every bit of strength available to them. You see, Ultron is returning...

"The absence of *Iron Man* will have profound effects on the group," editor Nel Yomtov said, "and we have some big plans and storylines to follow up on that point." The departure of *Iron Man* begins in *Avengers West Coast* #89, an October 8th release; *Avengers West Coast* is written by Roy Thomas and illustrated by Dave Ross and Tim Dzon.

Will Tony Stark be returning to the pages of *Iron Man*? Undoubtedly—but the world to which he returns may be significantly different than the world at the time he entered his cryogenic sleep...

Adventure Returns to the Forbidden Zone

Adventure Comics' **Planet of the Apes** adaptations have been absent from comic racks for most of 1992; this December, though, fans can make a return voyage to the Earth's future in **Planet of the Apes: Forbidden Zone**, a new four-issue limited series by **Lowell Cunningham** and **Leonard Kirk**. The new series follows Mendez Ten, a mutant from the Forbidden Zone, as he leaves the mind control and dictatorship of the Holy City to find something better. At the same time, Julius and his Ape City scouting group make an unexpected discovery: an intact pre-devastation mini-mart! **Forbidden Zone #1**, a \$2.50 comic, is scheduled for December release.

Green Arrow's Past Makes You Wonder

Green Arrow's origin has been told on several occasions, but very little attention has been focused on Green Arrow's early years as a superhero. **Mike Grell** and **Gray Morrow** remedy that in December, though, with the release of the debut issue of a four-issue limited series **Green Arrow: The Wonder Year**.

Like **Batman: Year One**, this series focuses on the beginnings of a superhero's battle against crime. **The Wonder Year** also spotlights the transformation of an affluent, naive hero into a dedicated urban vigilante, pointing out what DC's **Patricia Jeres** describes as "the Emerald Archer's career as a true hero of the common man."

Mike Grell is both the writer and the layout artist of **Green Arrow: The Wonder Year**; Gray Morrow is the finishing artist on the series. **The Wonder Year #1**, a New-Format comic priced at \$1.75, is scheduled for December 24th release.

Doomsday Draws Very Near

Last week, **CSN** told you about the upcoming **Doomsday: Death of Superman** card series from Skybox (the manufacturers of the **DC Cosmic Cards**). Now Skybox's **George White** offers **CSN's** readers additional news about this superhot card series commemorating what is certain to be the comic book event of the year.

"We're preparing a hundred card series, and we hope to have it in the stores by the time **Superman #75** ships—or very shortly thereafter. We've been pulling out all the stops to get these cards into production in record time, but the end result still looks as good as any card Skybox has produced," White said. "Additionally, there will be some really collectible variant artwork in these cards. Since some of the comic covers included in the card set feature Batman—and Skybox doesn't have a license for Batman cards—those covers have been redrawn specifically for these cards. This is the only place that these versions of the covers will ever be seen!"

Doomsday: The Death of Superman Trading Cards, priced at \$1.25 per pack, should be in comic shops by early December at the latest—or even earlier, if Skybox can manage it!

An Appropriately Timely Release

Numerous comics from virtually every publisher feature holiday-themed stories in December; this year, though, Marvel's Epic Comics goes one step further in presenting a very appropriate December comic book release. **The Life of Christ #1: The Christmas Story**, the first issue of a three-issue limited series, presents the first segment of Christ's life, focusing on his birth and early life. The miniseries will also chronicle the miracles of his adult life and the story of his crucifixion and resurrection. **Life of Christ #1**, written by **Louise Simonson** and illustrated by **Mary Wilshire**, is a \$2.99 comic from Marvel and Thomas Nelson, Inc., scheduled for December 17th release.

A Speedy End to Qurac?...

Sometimes a really good plan just goes awry... That's certainly what happens when Deathstroke joins forces with a faction of the Brotherhood of Evil in an effort to capture nuclear warheads. When the all-new Speedy gets involved, though, the plan falls apart—as does the nation of Qurac, which is destroyed in a nuclear conflagration that causes millions of deaths. It all happens in **Deathstroke the Terminator #19**, the penultimate chapter of the "Assault on Russia" storyline. **Marv Wolfman**, **Steve Erwin**, and **Will Blyberg** bring fans all the horrible details on December 17th.

Holiday Lights

The holiday season is a time when people often visit their families; thus, it's only natural that Hal Jordan should pay a visit to his brothers. Of course, since Hal Jordan is also Green Lantern, very few events in his life proceed normally—and a family reunion is no exception. What starts off well goes haywire when Dr. Light drops in; it's up to Hal to stop him without revealing his secret identity. You can see how it all works out in **Green Lantern #36**, written by **Gerard Jones** and illustrated by new **Green Lantern** penciller **Gene Ha**. Look for it on December 31st.

Feels Like the First Time...

The Silver Surfer has been soaring through the Marvel Universe for almost a quarter-century now; he's been around for so long, in fact, that most readers today don't realize that when the Surfer first appeared in the pages of **Fantastic Four #48**, no one was sure if he was a hero or a villain. Nostalgic fans can relive that wonderful storyline for a bargain price when Marvel reprints **Fantastic Four** #s 48-50 in the bookshelf-format **Silver Surfer: The First Coming of Galactus**. This classic tale by **Stan Lee** and **Jack Kirby** will fit in just perfectly in front of your **Silver Surfer Marvel Masterworks** volume... and the entire FF storyline can be yours for only \$5.95! (Now, if only Marvel would reprint that hard-to-find Silver Surfer Lee-Kirby graphic novel from the 1970s...) **The First Coming of Galactus** is scheduled for December 10th release.

NOVEMBER CHECKLIST

3

The following comics are scheduled for release on the dates given; unfortunately, it is not uncommon for comics to be rescheduled or delayed due to various circumstances. As a result, the dates given are only tentative dates, and are subject to change. Also, different parts of the country will receive different books at different times; depending on where your local comics shop is located in relation to the publisher's printing site, your shop may receive these books later—or earlier—than the given date. If you have questions about delayed books, talk to the friendly people at your local comics shop; when CSN is notified in time, we will make changes in our checklist

□ **2000 AD Showcase 8** Fleetway/Quality \$2.95
